Prescribers need to move away from cilazapril use

Prescribers are being encouraged to move away from the use of cilazapril. This is to minimise the impact on patients and on prescribers' workflow if cilazapril becomes unavailable in the future. This dashboard theme allows you to: • view data about patients dispensed cilazapril, nationally and by both prescriber and practice

ļ 💽

see the rate at which patients have been transitioned from cilazapril so far.

This can help prescribers to plan for patients still taking cilazapril and identify priority groups to transition from cilazapril.

TIONAL DATA YOUR PATIENTS & PRACTICE

🕼 | CILAZAPRIL USE

Cilazapril continues to be used frequently

Cilazapril is used in New Zealand much more than any other country. There is only one manufacturer of cilazapril internationally, which puts New Zealand at risk if a future manufacturing or supply issue arises. Use the data displays below to see how many of your patients and patients in your

Practice points for moving away from cilazapril

When changing from cilazapril or initiating an angiotensi angiotensin-II receptor blocker (ARB):

- Choose once-a-day treatment wherever possible simpler treatment regimens improve persistence
- Where appropriate, consider an ARB for new patients because there is less risk of adverse effects,
- particularly the dry irritating cough associated with ACE inhibitors.
- When starting new patients, titrate up slowly from a low initial dose to minimise the risk of adverse
 effects.

More information is available here:

Click your initials and select "My Profile" to view your account details. You can also log out from here.

EPiC Reflect

EPiC Reflect prompts you to delve into the prescribing data, reflect on your current practice and develop quality improvement initiatives with your team. Each EPiC Reflect activity is populated with examples and endorsed by the RNZCGP for CME. Simply download and save the editable PDF, complete the activity, then upload to your CPD record. Look for the "EPiC Reflect" icon to the right side of your screen.

🙆 Your data

This tab contains the data stories with your data and your practice data populating the charts.

🕒 Your Practice data display

This shows data about patients enrolled at your practice. The prescriptions can be provided by any prescriber including those not working in that practice (eg, specialists, after-hours healthcare settings).
